

[Ecolotec Joins Energy Star Program](#)

Huntsville, AL (January 30, 2007)- In a continuing effort to produce totally environmentally friendly products, Ecolotec officially announced joining with the ENERGY STAR PARTNER PROGRAM to continue efforts towards environmental conservation.

The program was created to acknowledge companies with forward thinking programs that are designed to help the environment through sound manufacturing processes.

Ecolotec is reinforcing their commitment to environmentally friendly manufacturing processes. Ecolotec is also committed to producing the highest quality medical waste processing equipment available.

Ecolotec manufactures medical waste processing equipment for hospitals. Their distribution is worldwide.
